## *“We Build Dreams”*

My passion for LEGO® bricks was born when I was a child. Even then I dreamed about inventing LEGO® spaceships, to be able to explore new and exciting worlds. The dream of a child who always said: *“when I grow up I want to be a LEGO® engineer”*.

The passion for LEGO® bricks led me to become **the first and only Italian LEGO® Certified Professional**, to open the **BrickVision company** that designs and manufactures models, mosaics, sculptures in customized LEGO® bricks for companies and individuals.

Certified  
**Professional**

## **A STUDIO WHERE IDEAS ARE DESIGNED AND DEVELOPED**

The Studio is the headquarters of Brickvision, the space where we develop ideas, give shape to creativity, and shoot videos and photos. It's a creative atelier halfway between an artisan workshop and a digital startup.

## **DESIGNERS, VIDEO MAKERS, PHOTOGRAPHERS. AN AMAZING CREATIVE TEAM!**

Riccardo works with a creative team, capable of developing the most ambitious projects: from construction to storytelling, up to the most operational activities.  
Only for real dreamers!

# WHAT WE DO

## ***LISTENING TO THE NEEDS OF OUR CUSTOMERS***

It can be the launch of a product, a team-building event, or a brand awareness initiative. Don't you have clear ideas? No problem, our creativity helps you!

## ***DEFINING UNIQUE CREATIVE SOLUTIONS***

We study the brand guidelines and work with imagination and creativity to design unique works in LEGO® bricks and to achieve the client's goals.

## ***WE BUILD OUR CREATIONS BRICK BY BRICK***

We give real form to our visions thanks to advanced design tools and manual brick-by-brick construction.
